

## Bloccupy against Austerity, Nationalism and Capitalism in Europe

*The Sphinx from the ECB!*

Do the banksters know what they are doing? Austerity dictates from the European Central Bank (ECB) in Frankfurt led to the rise of right-wing nationalism, especially in France, Hungary, Great Britain, Germany and strong left-leaning parties such as Podemos in Spain, Syriza in Greece and protest movements like Bloccupy. In Germany, the Left has not yet decided, whether to join wholeheartedly the protest movement against feudal capitalism or to be part of a left-wing government.

What the banksters at the European Central Bank and the financial oligarchy seem to forget is that the real power lies in the hands of the people and in the streets. The banksters are not democratically elected, their legitimacy is zero. Instead of being controlled by the politicians, the banksters spoon-feed the latter. The ECB is not a bank but a political institution that has caused together with the IMF and the EU social disaster all over Europe. The right-wing setbacks are also felt in Germany in form of "PEGIDA" and the "Alternative for Germany" (AfD).
