

Hillary Clinton: A Threat to All Humanity

The German media class is all for Hillary Clinton and demonizes Donald Trump not without good reason. Even a quick look at Clinton's political past makes one shiver. Clinton is a Neocon and Wall Street warmonger. She poses an existential threat to all of humanity. She always supported the US aggressions illegal wars abroad. She is as bad as her husband President Bill Clinton was. She admitted that the US created the Islamic terrorists in Afghanistan in the first place. She makes it very clear that Iran and Russia could be militarily targeted, and the nuclear options are always on the table. "Hillary Clinton is a Neocon, a war hawk, a liar, an unindicted criminal and a Wall Street puppet." It's a big shame that leftists fall in line with her and help her to get elected. Watch the whole video and oppose the election of Hillary Clinton.
